- React & jQuery
- JavaScript ES6+
- HTML5, CSS3, Sass
- Bootstrap
- RESTful APIs
- Firebase
- Git and GitHub
- C, Python & SQL
- Responsive design
- Team-based and paired programming
- Project scope management
- Adobe Photoshop and Premiere Pro

EDUCATION

Juno College of Technology

2020 - 2021

Front-End Web Development

- Web Development Immersive Bootcamp
- Accelerated JavaScript (jQuery)
- Intro to Web Dev

University of Toronto, School of Continuing Studies

2015 - 2016

Post-Graduate Certificate

- Digital Marketing Management

University of Toronto, St. George

2008 - 2013

Honours Bachelor's of Arts

- English, Media Studies & Cinema Studies

I create responsive, accessible and visually cohesive web applications utilizing advanced front-end skills and strong programming fundamentals. Prior to my career as a web developer, I have spent nearly a decade as a videographer, where I built expertise in communicating effectively and helping others bring their creative vision to life - skills that have proven to be invaluable to me as a developer.

RECENT WORK EXPERIENCE

BMO Financial Group (Toronto)

FRONTEND DEVELOPER | AUG '21 - PRESENT

- Built responsive web pages on BMO.com and BMOHarris.com with pixel perfect accuracy to UX mockups while adhering to WCAG 2.0/2.1 Level AA standards for accessibility.
- Developed new React components and optimized existing ones to ensure continued reusability, and conformance to the required a11y standards.
- Used utility-first CSS frameworks like Tailwind to maintain a consistent design language across all pages and components.
- Created and modified JavaScript behaviours to ensure smooth functioning of several React applications across the bank's various digital assets.
- Used advanced git workflows to collaborate on complex codebases among a large team of 40+ developers.
- Prepared deployment artifacts and successfully deployed web pages and other assets to QA, preview, and production servers on a daily basis using custom Python scripts as well as OpenText's WEM.
- Worked in an agile environment using Kanban methodologies to ensure optimal performance and productivity in a large digital delivery team.
- Trained junior developers and ensured smooth and efficient transition onto the development team.

Novela Neurotech (Toronto)

FRONTEND DEVELOPER | MAY '21 - AUG '21

- Built new pages and remediated existing ones for a React/JavaScript based cross-platform application.
- Designed and developed reusable React components, using libraries such as Material UI and Ant Design.
- Partnered with UX designers to create a consistent design interface across all components of the app.
- Integrated API data in an intuitive UX Design, with a focus on ease-of-use for epilepsy patients.
- Collaborated with other frontend and backend team members to optimize app for accessibility and cross-platform compatibility.

HCL Canada Inc (Remote)

FULL STACK DEVELOPER - TRAINEE | MAY '21 - JUN '21

- Selected in a cohort of trainees for HCL's client Microsoft.
- Trained in C#/.Net, SQL server and other full stack technologies
